HARVEST OF THE MONTH

Sweet Corn is an American staple in your summer backyard BBQ. Corn can be grilled, baked, or roasted to make the perfect summer treat. Corn is full of antioxidants and fiber that help with vision and digestion. Sweet Corn contains less sugar than an apple and is a terrific addition as a side to any meal.

Stop by our cafés all month long to try sweet corn!

SLA Management is sensitive to the needs of students with disabilities and will make every reasonable effort to accommodate students with disabilities so they can enjoy school lunch. If your child has a medical condition that may be affected by eating school lunch, please contact your school's office for a Diet Modification form. In spite of our every effort, we cannot be absolutely certain that contaminants have not been introduced to products prior to their receipt, or preparation facilities used by a third party while not under the supervision of SLA Management.

This institution is an equal opportunity provider.
